

ABDUL SAMHOON

Professional Summary

AI & Data Science undergraduate skilled in Python, SQL, Power BI, and exploratory data analysis. Experienced in building end-to-end analytics and machine learning projects involving environmental, food, and educational datasets. Passionate about turning raw data into actionable insights through visualization and predictive modeling.

Education

- B.E. in Artificial Intelligence & Data Science | Bearys Institute of Technology, Mangalore | **CGPA: 8.6** | 2023 – 2027
- Class 12 (PUC) | Yenepoya PU College | **Aggregate Score: 86.5%** | 2023
- Class 10 (SSLC) | Nithyadar English Medium School | **Aggregate Score: 86.4%** | 2021

Technical Skills

- **Languages & Tools:** Python, SQL, Power BI, Excel, Git, GitHub, MySQL, phpMyAdmin
- **Libraries:** Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
- **Data Analytics:** EDA, Data Cleaning, Data Wrangling, Data Visualization, Dashboard Development, Trend Analysis, KPI Analysis
- **Concepts:** Statistics, Feature Engineering, Machine Learning, Predictive Analytics, Business Intelligence

Projects

Food Nutrition & Health Risk Analytics System | Personal Project | Jun 2026

- Analyzed food nutrition datasets using Python, Pandas, and MySQL to uncover health-related patterns.
- Developed a health risk scoring framework using nutritional attributes such as calories, sugar, fat, and sodium.
- Built an interactive Power BI dashboard to visualize nutrition trends and health risk insights.

India Food Price Intelligence Dashboard | Personal Project | Feb 2026

- Conducted exploratory data analysis on agricultural pricing datasets using Python and Pandas.
- Built interactive Power BI dashboards to analyze regional pricing trends and market volatility.
- Applied comparative analysis techniques to identify pricing anomalies and regional market patterns.

Apple Stock Market Analysis Dashboard | Personal Project | Feb 2026

- Analyzed historical Apple stock data using EDA to identify price, trading, and volatility trends.
- Built an interactive Power BI dashboard using DAX and Power Query to visualize stock performance and market patterns.
- Generated insights on bullish/bearish trends, volatility, and trading activity for financial analysis.

Awards & Certifications

- **2nd Prize:** AI Sparkathon 2025 winner at Bearys Institute of Technology.
- **9th Place:** National Level Hackathon participant and top-tier finalist.
- **IBM/Coursera:** SQL for Data Science certification covering queries, joins, and database concepts.
- **DeepLearning.AI:** Supervised Machine Learning (Regression & Classification) certification.
- **Hackathons:** Participated in AXIOM State-level Hackathon, Google Agentic AI Day, and InUnity Innovation for Community.

Extracurricular Activities

- Regularly play **Chess** and solve **Sudoku**, strengthening logical thinking and problem-solving skills.
- Actively attend regional hackathons and industry AI webinars to track emerging technologies.
